

EX-CELL

KAISER

Decorative Receptacles for Waste and Recycling

All receptacles manufactured by Ex-Cell Kaiser contribute to **CLOSED-LOOP RECYCLING!**

PLASTICS

Plastic can only be recycled once or twice before being cycled down due to degradation of material. A “one-and-done” type of material that goes into landfills at the end of its service life.

METALS

Metals, including steel, can be recycled an infinite number of times, and therefore never contribute to landfill waste.
